Singapore is the best location for international advisers

Jigsaw continues to expand its clientele on an international basis and as such continues to look for quality personnel to work with. Initially Jigsaw has employment opportunities in Asia and aspirants will enjoy reporting to our head office in Singapore although our ever increasing global client base would also benefit from wealth managers resident closer to client location; either way, Jigsaw can accommodate both.

Jigsaw offers a working partnership environment to promote cohesion and stability and is looking for adaptable, compliant personnel who are energetic and enjoy a new challenge.

Partners will have the relevant qualification and experience to engage in Wealth Management activities and a proven track record in a financial services profession.

Jigsaw requires that worthy partners contact us for more information sending a copy of a current CV.
